6 (A) the Committee on Foreign Relations of
7 the Senate;

8 (B) the Committee on Appropriations of
9 the Senate;

10 (C) the Committee on Foreign Affairs of
11 the House of Representatives; and

12 (D) the Committee on Appropriations of
13 the House of Representatives.

14 (2) **INTERNATIONAL FINANCIAL INSTITUTION.**—The term “international financial institution” means—

17 (A) each of the institutions listed in section 1701(c)(2) of the International Financial Institutions Act (22 U.S.C. 262r(c)(2)); and

20 (B) the International Development Fund
21 for Agricultural Development.

22 **SEC. 3. FINDINGS.**

23 Congress makes the following findings:

24 (1) On April 25, 2015, an earthquake measuring 7.8 on the Richter scale and a subsequent

1 earthquake on May 12 measuring 7.3 on the Richter
2 scale and numerous aftershocks—

3 (A) devastated Kathmandu, Nepal and the
4 surrounding areas;

5 (B) killed more than 8,700 people;

6 (C) injured hundreds of thousands addi-
7 tional people;

8 (D) destroyed or damaged more than
9 770,000 homes, leaving the families who had
10 been living in those homes without shelter;

11 (E) damaged or destroyed more than
12 47,000 classrooms;

13 (F) damaged or destroyed over 1,000
14 health facilities including primary health care
15 centers and birthing centers;

16 (G) left many people with newly acquired
17 disabilities, including lost limbs and other phys-
18 ical and mental trauma;

19 (H) severely impacted livelihoods and food
20 security for millions of people, including the de-
21 struction of stockpiled grains and the loss of
22 more than 17,000 cattle and 40,000 smaller do-
23 mesticated animals; and

24 (I) disrupted social structures and families
25 through death, injury, and relocation.

1 (2) The earthquake devastated Nepal's infra-
2 structure, including homes, offices, factories, roads,
3 bridges, communications, and other facilities.

4 (3) American citizens were also killed in the
5 widespread destruction caused by the earthquake.

6 (4) Six American service members and 2 mem-
7 bers of the Nepalese Army lost their lives in a heli-
8 copter accident while working to relieve the suffering
9 of the Nepalese people following the earthquake.

10 (5) The World Bank and the Government of
11 Nepal conducted a post disaster needs assessment
12 that estimated almost \$6,700,000,000 in sector spe-
13 cific damage, losses, and recovery needs.

14 (6) In Nepal, which is one of the poorest coun-
15 tries in the world—

16 (A) an estimated 25 percent of the popu-
17 lation lives on less than \$1.25 per day;

18 (B) there is a 46-percent unemployment
19 rate, with the majority of the population en-
20 gaged in subsistence agriculture;

21 (C) only 25 percent of Nepalese participate
22 in the formal banking system, with the majority
23 of Nepalese severely lacking access to credit
24 and financial services, making accessing credit
25 for rebuilding difficult; and

1 (D) has one of the slowest economic
2 growth rates in the region.

3 (7) Nepal bears a significant burden of national
4 debt, which hinders recovery.

5 (8) Some of the investments created from loans
6 to Nepal were lost in the earthquake, but the coun-
7 try is still obligated to pay off the loans.

8 (9) The geography of Nepal poses a significant
9 challenge to relief, reconstruction, and development
10 that requires extraordinary efforts and assets to
11 overcome.

12 (10) The United States Government, the Gov-
13 ernment of Nepal, and civil society organizations
14 have invested in disaster risk reduction efforts for
15 nearly 20 years. Those efforts have reduced suf-
16 fering and prevented greater loss of life and prop-
17 erty.

18 (11) In recent years, the Government and peo-
19 ple of Nepal have taken important steps forward to
20 resolve civil conflict, reconcile, and promote economic
21 growth and development.

22 (12) Nepal has qualified for the Millennium
23 Challenge Corporation Threshold Program and has
24 been selected for a Millennium Challenge Corpora-

1 tion Compact, based on its performance on key se-
2 lection criteria.

3 ~~(13)~~ United States trade preference programs,
4 which extend duty-free tariff treatment, could accel-
5 erate Nepal's efforts to reestablish economic growth.

6 ~~(14)~~ The earthquake has significantly increased
7 the costs and uncertainty of doing business in
8 Nepal.

9 ~~(15)~~ A strong and unequivocal commitment
10 from the United States is needed—

11 ~~(A)~~ to help Nepal offset the costs of doing
12 business in Nepal;

13 ~~(B)~~ to preserve the gains made with
14 United States assistance; and

15 ~~(C)~~ to encourage buyers and investors to
16 stand with Nepal through this crisis.

16 (F) prohibits the participation of the

21 bank account;

23 (i) the utilization of full-time, Nepa-

7 reconstruction resources;

8 (4) to ensure that previously ongoing develop-
9 ment investments in health, education, economic
10 growth, food security, and other areas continue,
11 where appropriate, and are not diverted to other
12 purposes, and additional resources are dedicated for
13 earthquake recovery;

14 (5) to support debt relief for the Government of
15 Nepal in order to expand and hasten government-led
16 reconstruction;

15 (8) to ensure, with the Government of Nepal,
